

Vaccinations

Vaccinations are an important form of preventative health, guarding against a variety of severe and life-threatening illnesses.

Common vaccines:

- Influenza (annual)
- Pneumonia
- Tetanus
- Hepatitis A & B
- Diphtheria
- Mumps
- Measles
- Whooping cough (pertussis)
- Meningitis
- Polio
- Shingles

At Hattiesburg Clinic, we provide these and other immunizations. We can work with you to determine which vaccinations you need in an effort to prevent serious illness.
